## Video Learning Workshop

How to use the example files included with this course:

- The example files are organized folders by chapter
- Open the file indicated at the beginning of the lesson you are working on
- Relink any broken links to the proper files in the Links folder
- Substitute any missing fonts with font available in your system
- Follow along with the video for hands-on learning experience
- When finished you can use the “Revert” function to return the file to it’s original state (to do this, go to File on the menu and select ‘Revert’)

The following example files are available for registered users:

(Note: The names match the corresponding chapter title, but not necessarily the section title or number)
